Disclaimer

This financial plan is designed to provide educational and/or general information and is not intended to provide specific legal, accounting and/or tax advice. Any comparisons and projections including expected rates of return are presented for purposes of illustration only. Nevertheless, we believe that the comparisons as well as the other projections shown provide an important and valid basis for consideration when planning for your financial future.

IMPORTANT: *The projections or other information generated by this financial plan regarding the likelihood of various investment outcomes are hypothetical in nature, do not reflect actual investment results and are not guarantees of future results. Results herein may vary with each use of the software tool(s) used to generate this financial plan and over time.*

The financial plan may contain ideas for your consideration concerning aspects of your life such as tax, retirement and estate planning, but these are not presented as, and must not be taken for, legal or tax advice. It is your responsibility to determine if, and how, the suggestions contained in the financial plan should be implemented or otherwise followed. You must carefully consider all relevant factors in making these types of decisions. For specific advice on these aspects of your overall financial plan, you should consult your professional tax and legal advisors. The report that follows is based upon:

- information and assumptions that you have provided or reviewed;
- current tax laws;
- appropriate financial planning concepts;
- historic asset class characteristics;
- additional assumptions and information discussed with your advisor.

The outcome of the analysis will be dependent to a significant extent upon the information and the reasonableness of the planning assumptions. It is your responsibility to provide accurate and complete information. Please contact your advisor with any changes to your information and/or planning assumptions. Inaccurate information and/or unreasonable planning assumptions can materially impact the results of this financial plan.

The simulation of returns at the individual asset, account and/or portfolio level drives the investment projections and proposed financial plan. In all cases investment projections are not to be considered definitive estimates of how the individual assets you own now or in the future will perform. Therefore, it is important that you recognize that the comparisons shown may include comparisons of two asset allocation models—the asset allocation of your current portfolio and the asset allocation projected in our proposed plan—and not comparisons of the individual securities you own. Model comparisons and the projected rates of return are based on past performance of the relevant asset classes. Past performance is not a guarantee of future results. No future rate of return can be predicted with certainty.

The report that follows does not make specific investment recommendations or analyze particular securities. Rather, the report typically contains a proposed asset allocation model based upon your stated risk tolerance, age, current asset allocation and value of your assets. The asset allocation models we use are continuously re-evaluated and are periodically changed as a result. We are under no obligation to revise any financial planning report already prepared if an allocation model is changed after it is issued to you.

Actual results are influenced by events that are both within and outside of your control. The rates actually returned by asset classes will differ from our projections. The rates actually returned by any allocation model noted within the financial plan will likely differ from those returned by any individual portfolio of securities constructed to follow a specific allocation model. Any rate of return shown or used in the financial plan is not intended to predict nor guarantee the actual results of an investment product.

Disclaimer

IMPORTANT: *Investments in stocks, bonds, mutual funds, and other securities are not bank products, are not FDIC insured, and may be subject to loss of principal.*

We have read and understand the above information and disclosures. We understand the basis upon which the report that follows was prepared. We recognize the nature of the asset allocation comparisons and estimated returns as illustrations only. We acknowledge that the report may contain a recommendation for adjusting the asset allocation of our current investment portfolio(s), but it does not provide any guaranteed rates of return, advice on particular securities or any specific legal, tax or accounting advice.

Grantor Retained Annuity Trust Illustration

Jack & Jill Flash

Assumes a Level Annuity and No Sale of Transferred Property during the GRAT Term

Assuming the transferred property is sold following Jack's death, the use of a GRAT in this manner is projected to produce a net after-tax benefit of \$553,313, or \$411,717 in today's dollars.

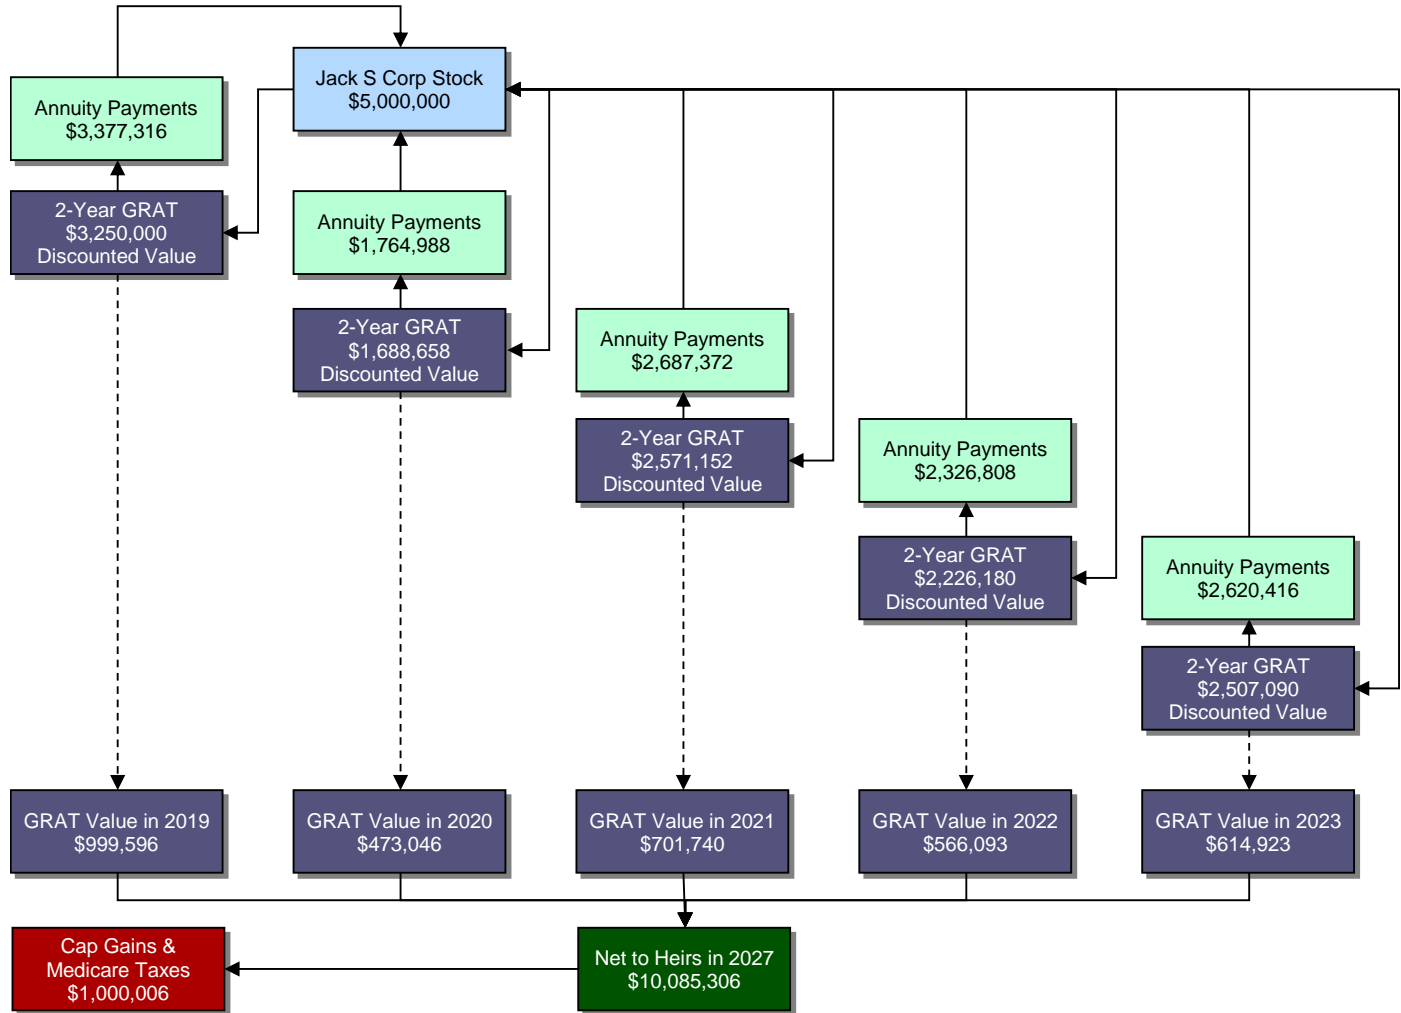

If, however, the property is not sold, the projected benefit of a GRAT would be 1,439,884, or 1,071,409 in today's dollars.
